October 4th, 2023

To: Azure DevOps customers

Microsoft recognizes the need to maintain an appropriate internal control environment and report on the effectiveness of, as well as material changes to, its system of internal control. This letter confirms that based on our records, and to the best of our knowledge, for the period of October 1st, 2022 through September 30th, 2023, we are not aware of any material changes to the system of internal control provided by Microsoft, nor has anything come to our attention that we believe would impact the conclusions reached in the SOC 1 Type 2 and SOC 2 Type 2 reports.

To conclude upon the design effectiveness of internal control at Microsoft, you also should request and read the SOC 1 Type 2 and SOC 2 Type 2 reports. This letter is not intended to be a substitute for the SOC 1 Type 2 and SOC 2 Type 2 reports, or to provide you with a certification of Microsoft's internal control, or to suggest to you that Microsoft has performed a separate evaluation of its controls for the purposes of producing this letter.

Sincerely,

Jorge Minana

Principal Compliance PM

Microsoft Corporation
